In... and out...

The changing tide has moved things in this rock pool. Can you spot nine differences?
Draw around each one.

Ha ha ha!

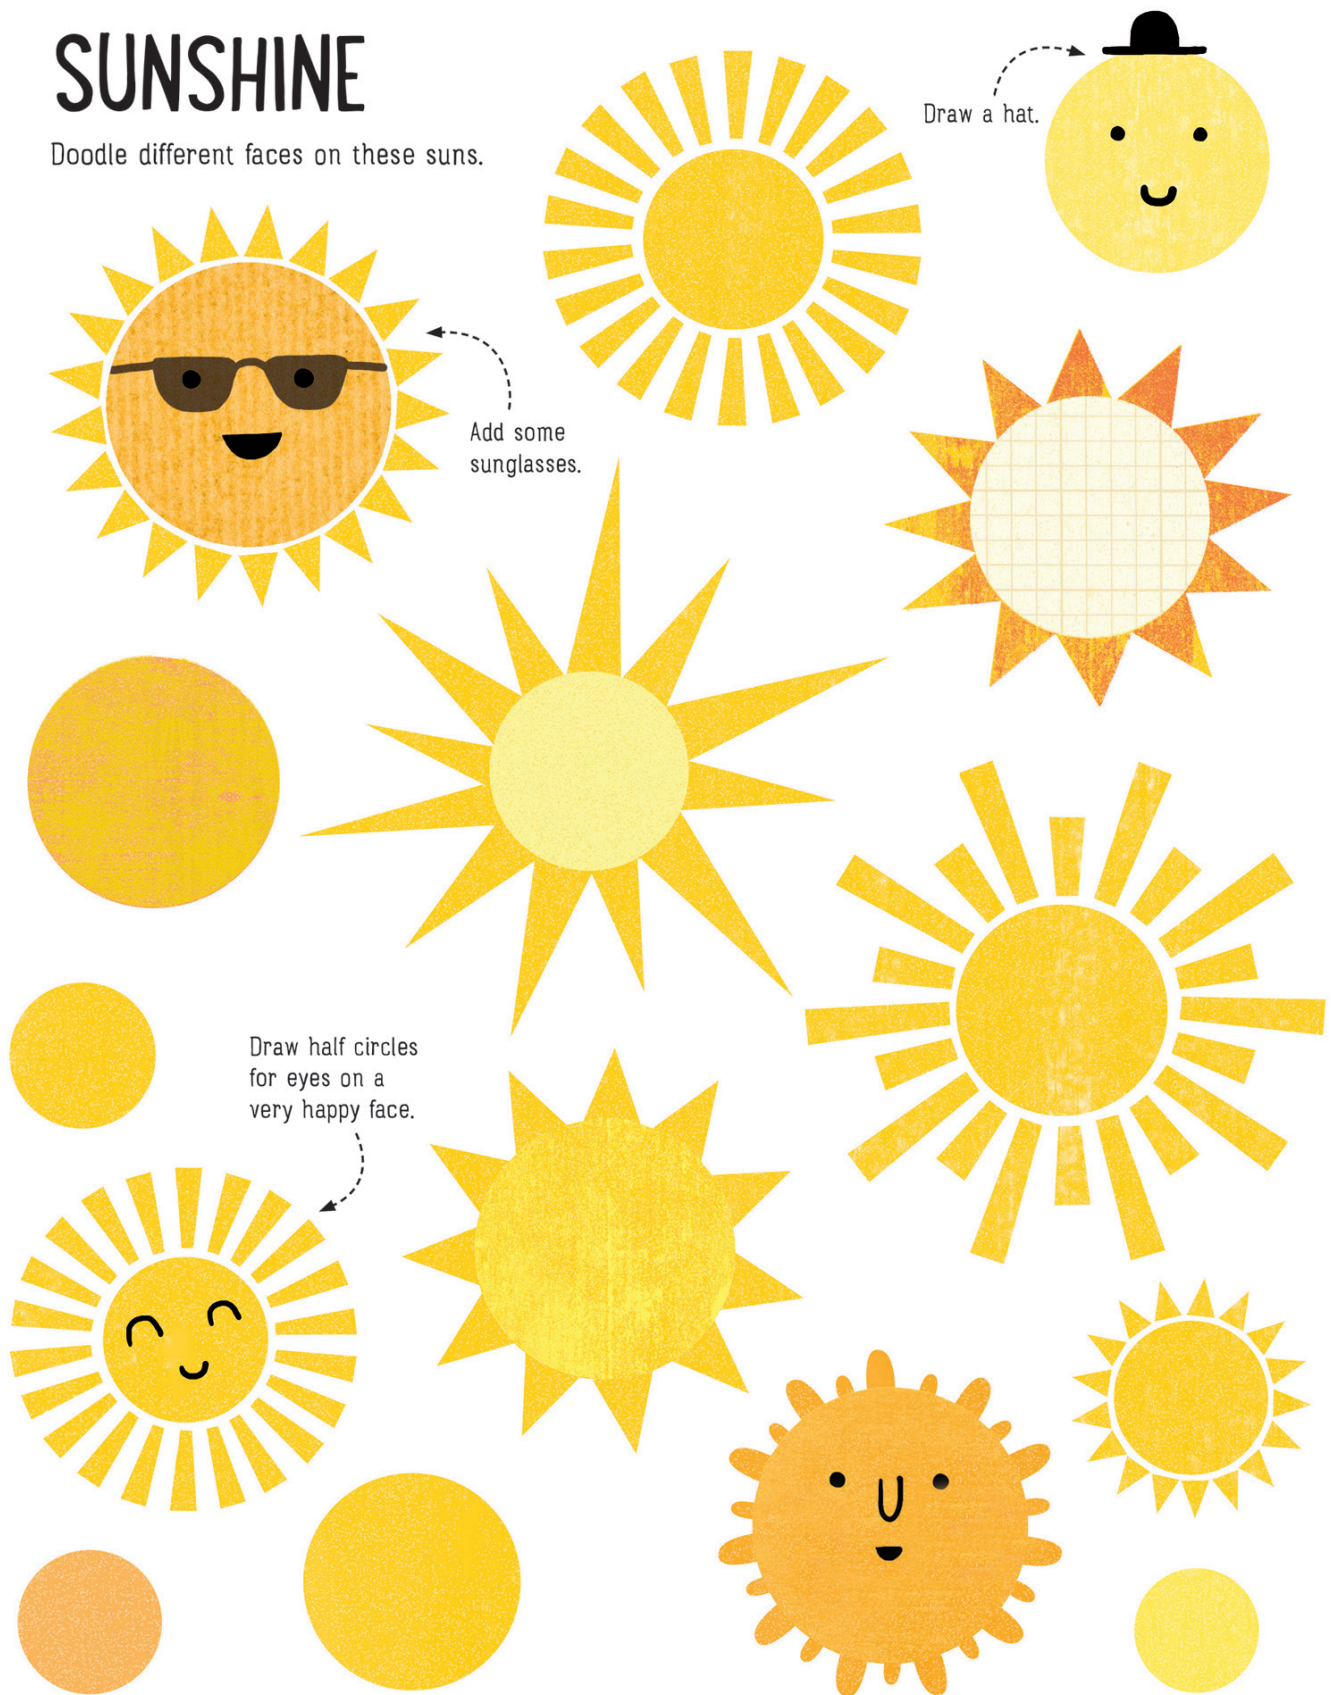

Q: Where can you find an ocean without water?

A: On a globe!

SUNSHINE

Doodle different faces on these suns.

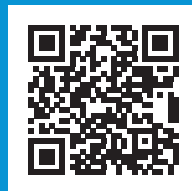

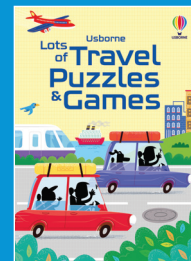

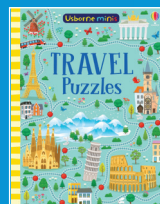

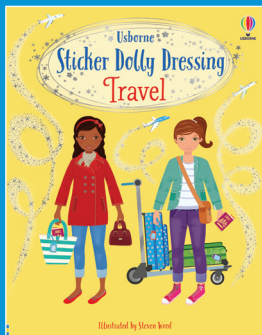

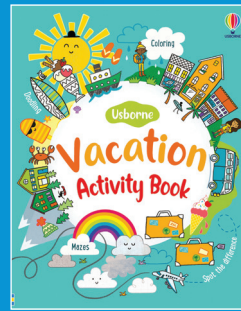

Pairs

Take turns to join up a matching pair of monsters, without taking your pencil off the paper.

If your line touches another line, or a monster from another pair, the other player wins.

Let's play!
